SHERO offers an intercultural space where all women\* can come to share, express themselves, discuss as equals without taboos on topics that concern them, for example: the body, sexualities, women\*'s roles in our societies.

We provide a place where women\* can exchange on their different experiences, without fear, without judgment and in complete freedom.

The invitation of professionals, workshops and the provision of tools and materials will enrich our meetings.

The goal is to promote the knowledge of women\* for women\* and to enhance the resources of each one.
